Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

1. Introduction

As it relates to the Teaching and Learning area, a brief narration of the history of the Psychology Department presents how the Bachelor of Science in Psychology Program (BSPP) was built and improved.

1.1. Brief History of the Department of Psychology (1970-2023)

The Faculty of Arts (FAS) of the old Philippines College of Commerce (PCC), through its Social and Behavioral Sciences Area offered a 5 – year AB Psychology in 1970. To be granted an AB Psychology diploma, students were required to finish 36 units of psychology subjects. Ms. Zenaida C. Santos was the first graduate of the program. The following year more graduates followed, namely Ms. Teresita F. Lorenzo, Gloria N. Pastor, Carolina S. Bautista, Zenaida Nepomuceno and Aida Angos.

When Dr. Pablo T. Mateo, Jr. became the President of the then Philippine College of Commerce in May 1977, the ladder program was adopted and expanded to include all degree courses, thus 13 other degree courses were added. In the same year, the PCC through P.D. 1341 attained the Status of a chartered university. Thus, the PCC was renamed Polytechnic University of the Philippines. The FAS then offered an additional program in Industrial Psychology.

As PUP broadened its course offerings, it also streamlined its administrative organization. In the next years, it was able to post several accomplishments. Relative to the Department of Psychology are the following:

- On August 3, 1981, Dr. Mateo issued Office Memorandum No. 6, S. 1981 creating the University Center for Psychological Services. The Center was designed to provide five (5) major services for students, faculty and administrative personnel of the University, namely: screening and assessment; career planning; consultation and research; therapy and placement; and follow-up. The technical and professional assistance of Dr. Marcelo A. Ordoñez who later became its first consultant was tapped.
- The Center likewise provided career development training in Counseling, Psychodiagnostics, Behavior Modification and Facilitator's Training. These trainings were held on April 12-24, 1982. Two months after, Dr. Ordoñez was designated Chief of the Center. He coordinated with the Guidance Center and the faculty members of the Social, Behavioral and Humanities Area of the FAS which was then headed by Professor Albino C. Amoguis.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

- Dr. Mateo also felt that there was a need for each student entering the University to be guided in the pursuit of a satisfying and happy way of life. The Center thus gave a battery of psychological tests to determine the specific interests, abilities, and attitudes of students to help them fulfill their goals in life.
- Dr. Mateo likewise underscored the need for assistance by the Psychological Center to students, administrative staff and faculty who are undergoing stress. Dr. Mateo explained that, *"It is [therefore], the responsibility of PUP to help the individual student coming to its portal be given the help that will make him a fully functioning member if the Filipino community."* Thus, activities centered on stress education and management were undertaken.
- The Department produced the first batch of students under the Industrial Psychology Major. Records from the Registrar's Office show that during the First Semester, School Year 1977 – 1978, twenty-four (24) students enrolled in Psychology. The twenty-four (24) were trimmed down to twenty-one (21) in 1978-1979 and further decreased to nineteen (19) in 1979 – 1980. Of the nineteen (19) only twelve (12) students fulfilled all the requirements for graduation.
- In the school year 1983-1984, there were seventy-one (71) ladderized technical and professional programs in the University and a new program, Bachelor in Human Behavior Technology (BHBT) was introduced under the Faculty of Arts and Sciences.
- In June 1984, Dr. Zenaida A. Olonan was designated Dean of the Faculty of Arts and Sciences.
- By the school year 1985-1986, the academic departments in the University were reorganized to make them more autonomous in planning, directing, and controlling their operations and the different disciplines work together under the supervision of one head, who is either the dean of a college or the director of an institute. An interdisciplinary approach in curriculum development was likewise adopted.
- The reorganization also created the following academic departments: Department of Language (formerly Communication Arts Area) under Professor Virginia Ranin; the Department of Social, Behavioral and Humanities Area under Professor Albino Amoguis; and the Natural Sciences (formerly Mathematics and Natural Sciences Area) under

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

Professor Aurora Venegas. These departments were tasked to conduct studies and researches for the improvement of curriculum programs, course contents, and instructional materials.

- In 1986, after a university-wide reorganization, the FAS became the College of Arts and Sciences (CAS). From 1986 to 1988, the CAS was composed of six departments: Department of Psychology, Department of Mathematics and Statistics, Department of Sociology and Anthropology, Department of History and Rizal, Department of Natural Sciences, and Department of Philosophy, Literature and Humanities.
- At this point, Dr. Zenaida A. Olonan, Dean of the College of Arts and Sciences, requested Dr. Marcelo A. Ordoñez and Professor Juan C. Birion to prepare the curricular program for graduate studies in Psychology, one for the Master of Arts in Psychology (MAP) and another for Master in Psychology (MP), a non-thesis program. The proposal was presented by Dr. Olonan and Professor Birion to the Graduate Council of the University and was approved in 1986 by the University Academic Council. A non-traditional program was prepared by Dr. Ordoñez. This was named CODE which stands for Center for Off-Campus Development Endeavors and was also approved by the Board of Regents.
- On June 1, 1990, Dr. Juan C. Birion was designated chairperson of the Department of Psychology.
- On July 27, 1992, Dr. Juan C. Birion and Prof. Zenaida C. Santos were designated Dean and Chairperson of the College of Arts and Sciences and Department of Psychology, respectively.
- The following professors were promoted as Chairperson of the Department of Psychology: Dr. Loreto V. Jao from 1996 to 1999; Dr. Nenita F. Buan from 1999 to 2003; Dr. Miriam A. Padolina from 2003 to 2006; Dr. Armando A. Torres from 2006 to 2009; Dr. Nicholas T. Mallari from 2009 to 2015; Dr. John Mark S. Distor from 2015 to 2021; and Prof. Lorraine Charmayne Manansala from 2021 to present.

1.2. Teaching and Learning in line with the University's Vision and Mission

The Bachelor of Science in Psychology Program has been designed to be in line with, and be guided by, the University's Mission, Vision, and Goals vis-à-vis

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

its Ten-Point Reform Agenda¹, to wit:

Mission

Ensuring inclusive and equitable quality education and promoting lifelong learning opportunities through a re-engineered polytechnic university by committing to:

- provide democratized access to educational opportunities for the holistic development of individuals with global perspective
- offer industry-oriented curricula that produce highly-skilled professionals with managerial and technical capabilities and a strong sense of public service for nation building
- embed a culture of research and innovation
- continuously develop faculty and employees with the highest level of professionalism
- engage public and private institutions and other stakeholders for the attainment of social development goal
- establish a strong presence and impact in the international academic community

Ten Pillars:

Pillar 1: Dynamic, Transformational, and Responsible Leadership

Pillar 2: Responsive and Innovative Curricula and Instruction

Pillar 3: Enabling and Productive Learning Environment

Pillar 4: Holistic Student Development and Engagement

Pillar 5: Empowered Faculty Members and Employees

Pillar 6: Vigorous Research Production and Utilization

Pillar 7: Global Academic Standards and Excellence

Pillar 8: Synergistic, Productive, Strategic Networks and Partnerships

Pillar 9: Active and Sustained Stakeholders Engagement

Pillar 10: Sustainable Social Development Programs and Projects

Thus, at present, and under the leadership of Chairperson Manansala, the Department of Psychology envisions producing professionally competent Bachelor of Science in Psychology² graduates who are sensitive, creative, and committed to the progressive transformation of our society. For its Mission, the Department is committed to the service of producing professionally competent and proficient

² Per CHED Memorandum Order No. 34 Series of 2017, the Department of Psychology shifted from a course offering of BS Psychology Major in Industrial/Organizational Psychology and BS Psychology Major in Clinical Psychology to Bachelor of Science in Psychology.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

graduates who will spur growth and development in the business and industry, and the society as a whole.

The Department further commits itself to developing highly skilled graduates who can competently and professionally meet the demands required in modern psychological care. More specifically, the Bachelor of Science in Psychology is an undergraduate program that aims to provide students with a strong foundation in psychological theories and concepts fundamental in delving into human behavior. As such, it aspires to develop students that are analytical, effective communicators, people-centered, technologically adept, ethical, empathetic, and resilient. Through the utilization of inter and multidisciplinary approaches, and employing flexible learning modalities, it seeks to produce competitive graduates with strong service orientation, leadership, and organizational skills; equipped in creating significant contributions in the field of Psychology locally and abroad, and well-prepared for further studies in the discipline and in other allied professions (such as education, medicine, and law).³

In line with CHED Memorandum Order No. 34 Series of 2017, the field of Psychology has a vital role in contributing to national development and keeping pace with the globalizing world. As such, the discipline offers scientifically supported psychological tools, techniques, and interventions for resolving social problems and fostering optimal growth and functioning at the individual, family, group, organization, institution, community, and national levels. Students and professionals can achieve this through effective and strong collaboration among the academe, government, and industries.

2. Bachelor of Science in Psychology Curriculum

The Department adheres to the curriculum standards as set forth by CHED and the University.

The program objectives of the Department in terms of student learning are detailed as follows:

2.1. Program Learning Outcomes (PLO)

By the time of graduation, the students of the BSPSY program shall have the ability to:

1. Demonstrate the capability to discuss and analyze the major theories and concepts in Psychology;

³ New Curriculum Proposal for School Year 2022-2023, in compliance with CHED Memorandum Order No. 34 Series of 2017.

Polytechnic University of the Philippines

College of Social Sciences and Development
Department of Psychology

TEACHING AND LEARNING

2. Evaluate and apply the methods of psychological inquiry in building knowledge on local culture and context;
3. Deduce and apply psychological theories and methods in personal and professional settings;
4. Exhibit the capability for self-reflection and independent learning in graduate education or in a professional context;
5. Exemplify professional and ethical behaviors in research and practice in Psychology;
6. Display the ability to relate appropriately with colleagues, clients, and others in diverse cultural settings;
7. Apply the proper administration of psychological assessments and evaluation; and
8. Utilize proper research tools and methodologies in appropriate epistemological and contextual underpinnings.

2.2. Program Objectives (PO)

The learning objectives of the program are achieved through the:

1. Introduction and fostering mastery of the fundamental theories and concepts in Psychology and its branches;
2. Developing of innovative learning paradigms such as webinars, simulation exercises, immersion, and the like, wherein students can demonstrate their ability to apply diverse psychological theoretical viewpoints and concepts in real-world settings;
3. Opening of avenues for students to delve into the tools, and techniques in psychological experimentation, research, and multidisciplinary approaches;
4. Analysis and Discussion of ethical and acceptable practices in the field of Psychology, with emphasis on effective communication, leadership, and organizational behavior; and
5. Integration of the moral, legal, ethical responsibilities, and societal impact of the psychology profession in their coursework.

2.3. Program Educational Objectives (PEO)

Within 3 to 5 years after finishing the BSPSY program:

1. Graduates acquire professional qualifications and uphold the legal and ethical practice mandated by the Professional Regulation Commission in contribution to human and societal development locally and abroad, in personal and professional settings;

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

2. Graduates demonstrate expertise in the profession with people-centeredness, empathy, resilience, and adaptability in diverse cultural settings;
3. Graduates can effectively collaborate, communicate, and affiliate with professional organizations in the field; and
4. Graduates employ empirical and multidisciplinary approaches with the aid of technological advancements in solving real-world problems that concern the profession.

2.4. Graduate Attributes

Within 3 to 5 years after finishing the BSPSY program Graduates are expected to:

1. Ethically practice their profession in contribution to human and societal development locally and abroad; in personal and professional settings;
2. Demonstrate expertise in the profession with people-centeredness, empathy, resilience and adaptability in diverse cultural settings;
3. Exemplify a lifelong learning approach through effective collaboration, communication, and affiliations with professional organizations in the field; and
4. Employ empirical and multidisciplinary approaches with the aid of technological advancements in solving real-world problems that concern the profession.

2.5. Curriculum Review – Action Plan 2022

On March 18, 19, and 31, a Capability Building Seminar-Workshop was held on the alignment of the Polytechnic University of the Philippines Curricular Program to the Vision of Becoming a National Polytechnic University.

TEACHING AND LEARNING

<p>Commission on Higher Education Republic of the Philippines OFFICE OF THE PRESIDENT COMMISSION ON HIGHER EDUCATION</p> <p>CHED MEMORANDUM ORDER (CMO) No. 53 Series of 2010</p> <p>SUBJECT : POLICIES AND STANDARDS FOR GRADUATE PROGRAMS IN PSYCHOLOGY</p> <p>In accordance with the pertinent provisions of Republic Act (RA) No. 7722, otherwise known as the "Higher Education Act of 1994," CHED Memorandum Order (CMO) No. 36, s. 1995, "Policy on Graduate and Postgraduate Education," CMO No. 9, 2003, "Directive to CMO 36, s. 1995 entitled Policies and Standards on Graduate Education;" and by virtue of CEB Resolution No. 289-2010 dated November 12, 2010 and for the purpose of making relevant the general principles and guidelines for the establishment and operation of Master of Psychology, Master of Arts/Science in Psychology and Doctor of Philosophy in Psychology programs in all Higher Education Institutions (HEIs) in the country, this set of Policies and Standards (PS) is hereby adopted and promulgated by this Commission.</p> <p>ARTICLE I INTRODUCTION</p> <p>Section 1. Rationale and Background. Psychology is the scientific study of behavior and mental processes. Psychology as a discipline and professional practice contributes to national development through basic and applied research and interventions aimed at solving problems and promoting optimal development and functioning at the individual, group, organization/institutional, community, and national levels. The graduate programs in psychology provide high level training in teaching and research in psychology and in the practice of the profession.</p> <p>ARTICLE II AUTHORITY TO OPERATE</p> <p>Section 2. Master's Program. Only Higher Education Institutions (HEIs) with Level III accredited undergraduate programs, including psychology may apply to offer the Masters Program. However, in the absence of a Level III accredited Psychology undergraduate program, the alternatives as provided in paragraph 4.0, paragraph 2 (Alternative Criteria) of CMO 9, s. 2003 shall apply, to wit:</p> <p>Thus, the following are to be considered as alternatives to Level III accreditation for these purposes: (1) The higher education institution has Level III accreditation in the Liberal Arts or in a discipline closely related to the program for which government authority is being sought; or (2) The higher education institution is a Center of Excellence (or where no Centers have been identified, a Center of Development) in the field in which the proposed program is offered and the faculty is being sought or in a closely related discipline. In addition, a strong research program in the area of study being applied for is required.</p> <p>Higher Education Development Center Building, C.P. Garcia Ave., UP Campus, Diliman, Quezon City, Philippines Web Site: www.ched.gov.ph Tel. Nos. 441-1177, 385-4391, 441-1169, 441-1149, 441-1170, 441-1216, 992-5296</p>	
---	--

<p>A strong research program should be indicated by the following:</p> <p>4.1 Research Unit. The university should have a research unit that manages, monitors and evaluates research activities and manned by permanent staff.</p> <p>4.2 Pool of qualified faculty. The HEI should have faculty members who are holders of masters and/or doctorate degrees responsible for handling the research activities specific to the discipline being applied for. For those applying to offer a master's degree program, the faculty profile should be 25% MS degree holders and 75% should be Ph.D.s. For those applying to offer doctoral degree programs, the faculty members must all be Ph.D. holders.</p> <p>4.3 Policies. The HEI should have policies and guidelines on benefits and incentives for faculty undertaking research work e.g., deloading, research awards, patents and intellectual property rights (IPR).</p> <p>4.4 Research Agenda. The HEI should have a clearly stated research agenda that includes the discipline being applied for. This agenda ideally should: 1) be anchored on the institution's philosophy and framework; 2) be aligned with identified goals and prioritized initiatives in the areas and sciences, 3) be aligned with the National Higher Education Research Agenda (NHERA) and other research thrusts, and 4) answer the needs of industry for economic development.</p> <p>4.5 Publication and Presentation in Conferences. The HEI should show proof of publications in refereed national and international journals in the specified discipline. The faculty members should likewise present their research accomplishments in local and international forums.</p> <p>4.6 Research Unit Facilities. The research unit shall have adequate facilities for the conduct of research in the specified discipline.</p> <p>4.7 Research Budget. In order to ensure the continuous operation of the Research Unit and the conduct of research in the college/university, it is imperative that a provision for a reasonable budget of at least 25% of the total school budget be allotted for its research undertakings."</p> <p>HEIs with Autonomous status may offer this program without seeking an authority to operate from the Commission but they have to comply with the minimum requirements provided for under this CMO.</p> <p>Section 3. Doctoral Program. Higher Education Institutions (HEIs) that have a recognized Master's program in Psychology with at least Level I accreditation and having offered a successful Master's degree program for at least five (5) years may apply to offer the Doctoral program.</p>	
---	--

3. Community Services

3.1. Responsive Extension Services

Under CHED CMO No. 8 series of 2008, the faculty of Higher Education Institutions (HEIs) are mandated to fulfill three core functions, one of which is the provision of Extension Services.⁴ Thus, in consonance with the CHED and University directives, the BSPP is committed and fully participative in undertakings related to Extension. These aim to share expertise, as well as transfer knowledge and skills with the outside community who are most in need and ensure the same as a source of empowerment.

Likewise, in consonance with the University's mission to develop globally competitive students and professionals through Responsive Extension Services, the Department includes its students in such undertaking. More particularly, 2019 saw the launch of "Students for Extension" which is currently being further developed.

⁴ See Extension Area Narrative for a more detailed discussion.

4. Support for Faculty

4.1. Faculty Profile

The realization of the program's objectives is closely related to the qualifications and competencies of faculty members who are at the forefront of instruction. The Bachelor of Science in Psychology has a pool of faculty members who are experts in their field.

Below is a brief bio note for each faculty member:

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

CHAIRPERSON

Lorraine Charmayne S. Manansala

Lorraine Charmayne S. Manansala is an Assistant Professor and Chair of the Department of Psychology - College of Social Sciences and Development of the Polytechnic University of the Philippines. She is a Doctor of Philosophy in Psychology student of the Ateneo de Manila University and a Doctoral Scholarship recipient of the institution. She finished her Master in Psychology degree specializing in Clinical Psychology at the Polytechnic University of the Philippines; and her Bachelor of Science in Psychology degree at Far Eastern University (Magna Cum Laude).

Aside from her full-time practice in the academe, she is a Registered Psychometrician and is currently involved in social psychological and multidisciplinary research using new and innovative research methodologies.

Polytechnic University of the Philippines

Department of Psychology

TEACHING AND LEARNING

Jose M. Abat

Mr. Jose M. Abat is a graduate of Bachelor in Human Behavior Technology (Clinical Psychology) and Master of Arts in Psychology major in Clinical Psychology at the Polytechnic University of the Philippines (PUP). He is finishing his PhD in Educational Management at the University of Perpetual Help System Binan.

He started serving PUP as Emergency Psychometrician and as a part time faculty member in the undergraduate level in the College of Arts, now College of Social Sciences and Development. As a regular faculty member, he has served as a designee in various capacities: as Faculty Assistant at the Office of the Vice President for Student Services and External Affairs; Assistant to the Vice President for Student Affairs and Services; Director of PUP Center for Human Development; Director of Institutional Planning Office; Executive Assistant to PUP President; Head of Student Services and Academic Programs, PUP Santa Maria Bulacan Campus (PUPSMB); Campus Director of PUPSMB; and Director, Office of Student Services, PUP Main Campus. He is an organizer and facilitator of seminars and trainings on student leadership and development.

He is currently the designated Chief of the Admission and Registration Services of PUP with the rank of Associate Professor V.

4.2. Faculty Development Plan

The holistic support for the continuous development of BS Psychology faculty members to help them achieve their full potential as effective facilitators of learning consist of the following components with the corresponding activities to accomplish the objectives: professional development, community development, research development, personal values and socio-cultural development and specialized training. As a result, the faculty members have shown exemplary commitment to their own development.

In line with this, the Chairperson of the BSPP prepares and implements a faculty development plan:

DEPARTMENT OF PSYCHOLOGY DEVELOPMENT PLAN CY 2021-2024

Likewise, to further assist in the faculty's development, faculty members with Regular/Permanent status are authorized to attend conventions, local and

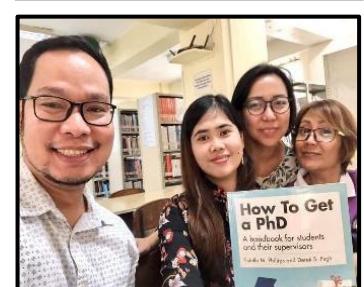

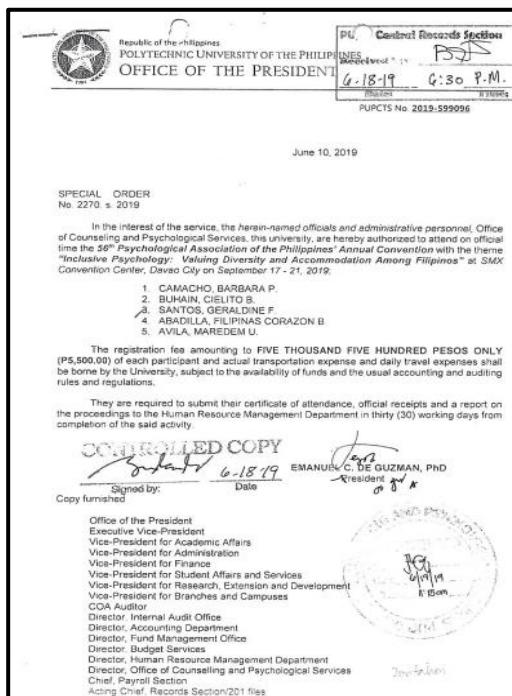

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

international conferences on official time with registration fee, actual transportation and daily travel expenses borne by the University as part of their incentives.

4.3. Professorial Chairholder Series

The Professorial Chair Grant was envisioned to: (1) harness expertise for institutional strength in support of academics and research activities for national development; (2) enhance leadership by recognizing excellence and supporting top quality professors and leaders who can contribute to the development of the programs of the University; and (3) encourage and promote basic and applied research, academic productivity, and publication among all faculty members.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

4.4. Annual Conventions

Faculty members regularly attend the Psychological Association of the Philippines (PAP). The 56th Annual PAP convention is briefly outlined here to emphasize the learnings of the faculty:

56th PAP Annual Convention

“Inclusive Psychology: Valuing Diversity and Accommodation Among Filipinos”

The 56th PAP Annual Convention, with the theme “Inclusive Psychology: Valuing Diversity and Accommodation Among Filipinos” held last September 18-20, at the SMX Convention Center, Davao City was attended by over 2,000 Psychology professionals.

Day 1, September 18 was the Registration and Opening Program with the following activities: Invocation by The Ateneo Sidlak Performing Arts Collective (ASPAC) Ateneo de Davao University followed by the Welcome Remarks of Fr. Joel E. Tabora, SJ President, Ateneo de Davao University. The Introduction of Keynote Speaker was by the PAP President, Ron R. Resurreccion, PhD, RPsy.

The Keynote Speaker Dr. Letty Peñano-Ho, RPsy President, Philippine Center for Gifted Education tackled the theme “Toward Inclusive Psychology: Infusing Diversity and Accommodation.” Plenary Session 1 “Inclusivity Amidst Diversity in Social Protection Programs” was done by USEC Luzminda Calolot-Ilagan Undersecretary for Policy and Plans and Department Legislative Liaison Officer Department of Social Work and Development (DSWD). Plenary Session 2 on the other hand, was “Navigating the Challenges of Social Inclusion in Mindanao: Reflections from the Field” by Hadji A. Balajadia, MSC of Ateneo de Davao University.

Afternoon session comprised Parallel Session A, Parallel Session B and Parallel Session C with the following topics: Understanding the Adolescent’s Journey Through Depression and Anxiety; Intersectionality in LGBT Psychology: Experiences of Diverse LGBT Filipinos; From Silent to Resilient: Exploring the Voices of Filipino Deaf Gay Men Employees in Hearing Workplace.

Day 2, September 19 activities were Parallel Session E followed by Division Meetings, Parallel Session F, SIG Meetings and the Dinner/General Membership Meeting and Fellowship Night.

Topics such as: The Recovery Experience: Stress, Recovery Capital, and Personal Views on Addiction and Recovery in Post-Treatment Addiction Recovery;

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

Abstinence Self-Efficacy and the Experience of Recovery Among Filipino Drug Surrenderees were discussed.

Day 3, September 20 Parallel Session G and Parallel Session H were held with the following topics: Ethical Issues in the Practice of Psychology: Scoping Reviews; Evidences and Ethical Arguments for Coercion and Compulsory Treatment for Addiction: A scoping Review and Ethical Issues in the Engagement of Psychologists in Social Media: Scoping Review.

4.5. International Seminars and Conferences

Faculty members also regularly attend International Seminars and Conferences relevant to their field.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

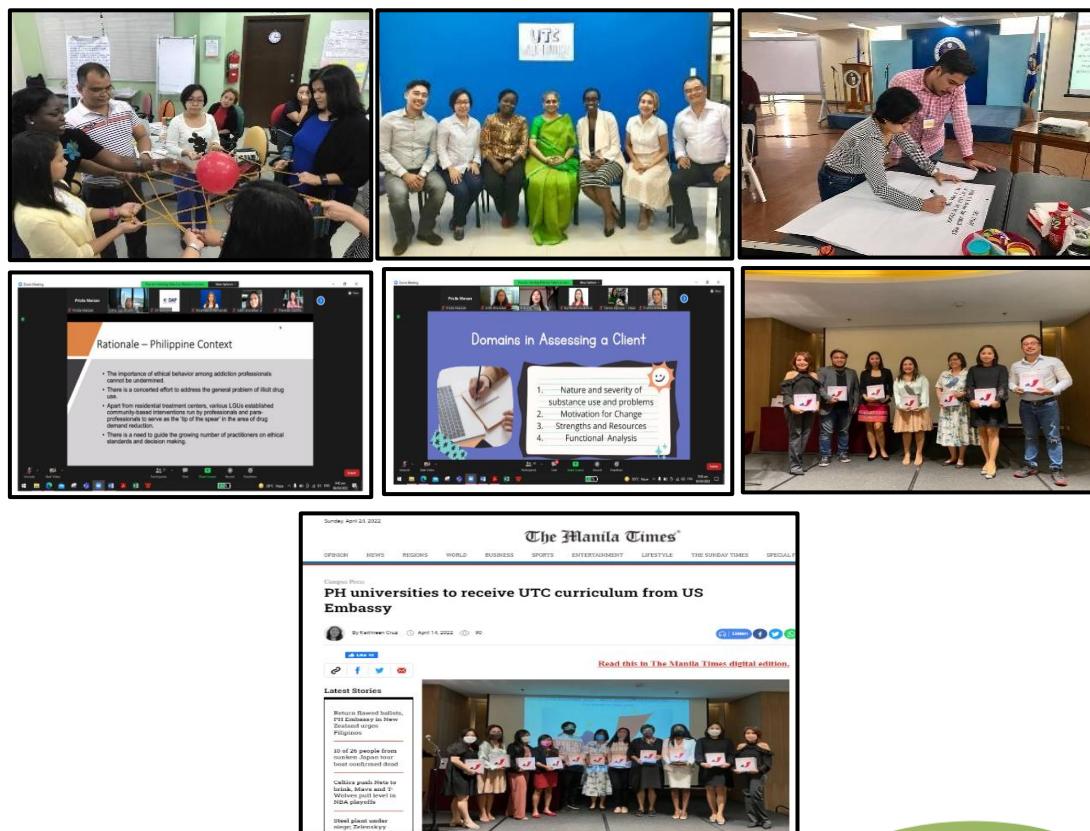

TEACHING AND LEARNING

Various International Seminars and Conferences attended by the faculty

4.6. Training Programs

Faculty members also regularly attend Training Programs relevant to their field. Below are only some of the examples of such training programs.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

Strong Families Program – UNODC, February 3-6, 2020; Mental Health First Responder; Universal Treatment Curriculum Walkthrough, June 18-28, 2018; The Colombo Plan Drug Advisory Programme “Universal Training Curriculum”, August 19, 2019 to August 28, 2019

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

4.7. Faculty Immersion

Exposing Faculty participants in the field helps Professors in terms of instruction duties. Exposure to the larger community, facilitating connections, engagement and socialization keeps faculty abreast of the mental health needs of stakeholders as well as developments in the field.

Likewise, through the Lakbay Aral Incentive, faculty members are encouraged to travel to educational, historical, and cultural places to broaden their perspectives, and help them establish meaningful relationships within the organization. Such activities are utilized to conduct benchmarking activities and aids the faculty in a more concrete and thorough understanding and appreciation of the expectations and demands of the industry. It likewise aims to further align faculty instruction and work-processes with up-to-date field practices.

Immersion with Johnson&Johnson

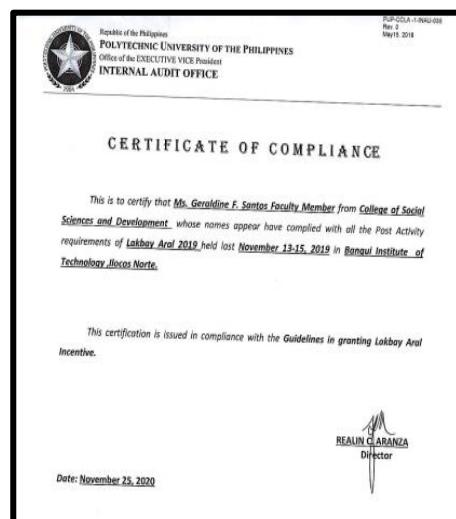

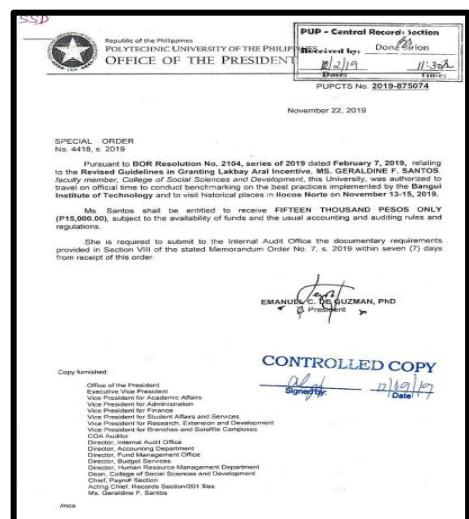

The Bangui Institute of Technology is one of the TESDA Institutions in the Ilocos Norte Province. It offers Technical and Vocational Education and Training Programs under the Technical Education and Skills Development Authority and the Commission on Higher Education.

Ilocos Norte Lakbay Aral

4.8. Faculty Wellness Program

The Wellness Program helps faculty members and employees to adopt healthy behaviors which lower health risks. Overtime, it has been proven too that employees who exercise regularly are likely to be more productive than those who do not. Thus, the University, through the College of Human Kinetics, offers free Zumba sessions, as well as other physical exercises not only for the known health benefits but to foster camaraderie among all employees and faculty members.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

4.9. Academe - Industry Partnerships

Academe-industry partnership, usually achieved through internship, is used by the Program in aligning and upgrading its curriculum to the demands of the industry. Practitioners and experts from private companies, government and non-government organizations are invited to talk about their present-day organizational ventures. They are likewise consulted to provide future directions for curriculum design and development. This endeavor further aims to develop and establish mutually beneficial partnerships with relevant industry sectors.

5. Support for Students

Students are the University's primary stakeholder. As such, student support must be ensured through various means.

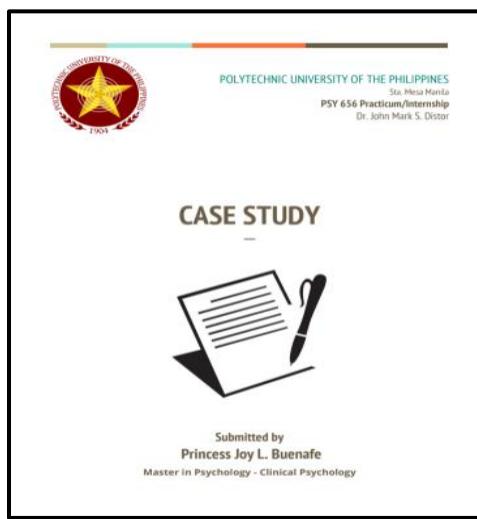

5.1. Teaching Methodologies

The BSPP faculty members ensure an intellectual, collaborative, and engaging learning environment through effective methodologies and approaches as they perform the roles of facilitators taking due consideration of the needs and situations of the undergraduate students.

5.1.1. Case studies and Discussion-based teaching and learning

The BSPP utilizes carefully designed cases and problems that challenge students to use problem solving techniques, use and improve upon self-directed learning strategies, foster team participation skills, and more importantly, aid students in applying theory to practice.

On the other hand, discussion-based teaching and learning is applied as well, as engaging discussions by faculty experts facilitate interaction and help students apply abstract ideas and think critically about what they learned.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

5.1.2. Simulation Activities

Simulation activities are also conducted where students are exposed to actual scenarios (e.g. counseling, PFA) under the guidance of their professors.

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

5.1.3. Practitioners in the Classroom

Practitioners are also invited to classrooms to share the expertise and experiences to better bridge the gap between theory and practice.

5.1.4. Exposure and Field Trips

Students in selected classes conduct exposure trips to institutions related to human development.

Polytechnic University of the Philippines

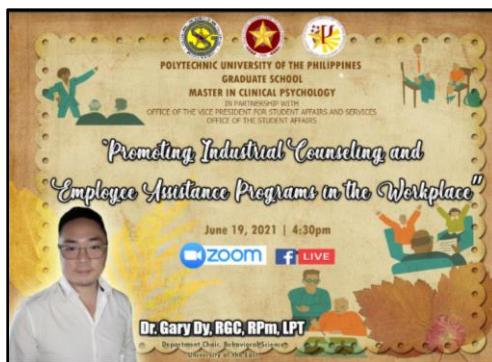

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

5.1.5. Fora and other Activities

Students are also provided with opportunities to learn from interactions with guest speakers, resource persons, and faculty through seminars, workshops, training, research colloquium, fora and webinars.

TEACHING AND LEARNING

5.1.7. Master Class

A Masterclass on Q-methodology was conducted by Dr. Peter Nynäs, Dean of the Faculty of Psychology and Theology at Finland's Abo Akademi University. The goal is to equip the faculty and students with fundamental knowledge in administering the Faith Q-Set, which attempts to understand the religiosity of young people. The college participants were also given simulations of how Q-methodology is carried out. Q-methodology is a powerful tool for researchers seeking to understand the complexity of human subjectivity and the diversity of individual perspectives on a particular issue or topic. It is a research technique that combines qualitative and quantitative methods to study subjectivity and individual

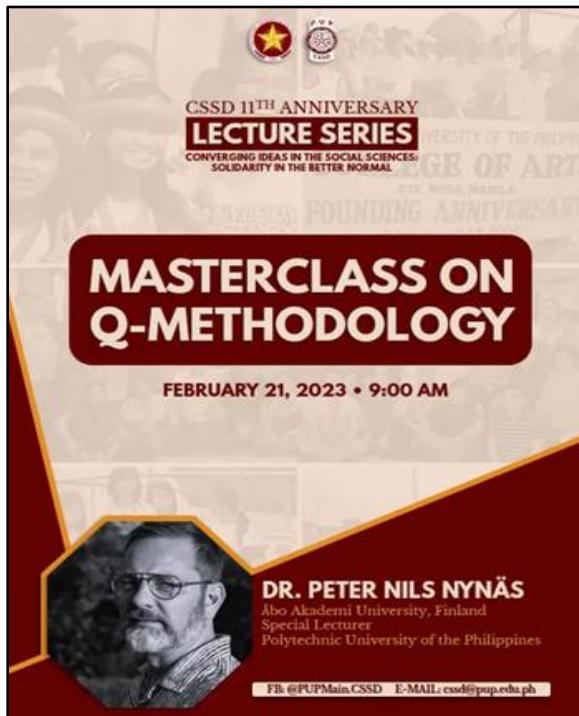

Polytechnic University of the Philippines

perspectives.

Masterclass in Q-Methodology with Dr. Peter Nynas, February 21, 2023

5.1.8. Wider Accessibility to Qualified Filipino/Foreign Students

The PUP participates in various student academic exchange programs. Policies and activities related to student exchange are coursed through the PUP Office of International Affairs (OIA). For international students, a graduating high school student or a high school graduate whose

Polytechnic University of the Philippines

College of Social Sciences and Development
Department of Psychology

TEACHING AND LEARNING

academic performance is above average and has a good moral character, is eligible to apply for admission to the University.

5.2. Class Records and Grade Sheets

The BSPP has developed and uses a standard and uniform Excel Sheet for its class records. The class record follows the grading system prescribed in the Student Handbook, with a weight of seventy percent (70%) allotted for class standing (*i.e. attendance, activities, quizzes, and reports*) and thirty percent (30%) allotted for major examinations (*i.e. midterm and final examinations*).⁷ The grades of the students as computed by the class record are then encoded to the University's Student Information System (SIS) which generates the Grade Sheets and is available for viewing in the students' respective SIS accounts. These ensure fairness and transparency in terms of grading of students.

The figure consists of four parts. The top row shows two screenshots of Microsoft Excel. The left screenshot shows a 'CLASS RECORD' template with columns for NAME, ATTENDANCE, ACTIVITIES, QUIZZES, REPORTS, and TOTAL GRADE. The right screenshot shows a 'GRADE SHEET' template with columns for NAME, MIDTERM GRADE, FINAL GRADE, and TOTAL GRADE. Both templates have a header with the university's name and logo. The bottom row shows two printed versions of the 'GRADE SHEET'. The left one is labeled 'Page 1' and the right one is labeled 'REGISTRAR'S COPY'. Both printed versions show a grid of student names and their corresponding grades. At the bottom of each printed sheet, there is a note: 'NOTE: After the remark "NOTHING FOLLOWS" affix signature or initial'. There are also small boxes for 'Code Number', 'Course Description', 'Individual Assessment Level A and B', 'Number of Units', 'Year And Section', 'Semester', 'Program Code', and 'Signature of Department Head'. The right printed sheet also includes 'Psychological Testing' and 'Signature of Department Head' fields.

Personal Information has been redacted in line with the Data Privacy Act.

⁷ PUP Student Handbook, 2013. (same grading system in 2019 proposed revisions for Student Handbook)

TEACHING AND LEARNING

5.3. Online and Modular Learning

The COVID-19 Pandemic has posed challenges for the whole academic system. BSPP, under the leadership of and with the support of the University, has done its best to ensure a smooth transition from in-person classes to online and modular learning. Among the many adjustments made are the following: the survey of students to determine their technological and socio-economic capacity for online classes, the provision of Microsoft and Zoom Accounts to the faculty for the conduct of such online classes, the development and distribution of Instructional Materials for students availing of the modular mode of learning, and various directives for academic easing such as considerations for absences due to unstable internet connections and class suspensions when urgently needed.

5.3.1. FlexTel

In the middle of March 2020, classes at all levels were suspended due to the serious spread of the COVID-19 pandemic. All schools, colleges, and universities, the PUP included, were faced with the dilemma of shifting to a different mode of instruction from the traditional face-to-face to online method of teaching. The BSPP, in line with and in support of the University's decision, shifted to the implementation of synchronous and asynchronous mode of teaching.

This approach allows students with varying internet and gadget capacities to participate and learn. Two modes of learning are available to students: online and modular modes. Students with the capacity to connect to the internet and have access to gadgets such as laptops, smartphones, and/or tablets are placed under the Online Mode where synchronous and asynchronous modes are combined. Students under the modular mode, on the other hand, were provided with hard copies of Instructional Materials which included activities and assessments. This approach ensures the University mandate that "no student is left behind."

The image displays three separate advisory documents from the Office of the Vice President for Academic Affairs (OVPA) of the Polytechnic University of the Philippines (PUP) for the first semester of the academic year 2020-2021.

- OVPA ADVISORY NO. 1, S. 2020:** This advisory is dated September 18, 2020, and is addressed to all faculty members. It discusses the opening of classes for the first semester, academic year 2020-2021. It specifies that students can choose between online mode and correspondence mode, and provides instructions for both modes.
- OVPA ADVISORY NO. 2, S. 2020:** This advisory is dated September 18, 2020, and is addressed to all PUP students. It provides guidelines for the opening of classes for the first semester, academic year 2020-2021. It emphasizes the importance of maintaining health and safety measures, including social distancing and hygiene practices.
- OVPA ADVISORY NO. 3, S. 2020:** This advisory is dated September 18, 2020, and is addressed to all faculty members. It provides new guidelines enhancing the previous ones. It includes sections on the use of video conferencing platforms, class cancellation, and other administrative details.

To further support and ensure that the faculty members are equipped with the needed skills for the use of video conferencing platforms, the program conducted an online training on E-Mabini LMS. The following topics were covered: Course Guide/Syllabus Development, Moodle Activities and Moodle Resources. Included too, were the presentation and checking of final outputs uploaded by all the participants.

DR. ELMER G. DE JOSE
Dean, Graduate School
This University

Dear Dean De Jose,

In line with our institution's effort to accept foreign students who are in their home countries and be served by PUP with their education needs via online, please be informed that there will be an online meeting on February 18, 2022, Friday, 9:00 A.M., via zoom video conferencing platform. This meeting is in preparation for the conduct of the Hands-on Training-Workshop on the Use of the e-Mabini Portal. The e-Mabini is the official Learning Management System (LMS) of the University. The meeting will be attended by the Academic Program Heads and faculty members of the five (5) academic programs under the Internationalization Program of the University:

1. Master in Economics
2. Master in Psychology

Please see details of the zoom meeting link:

Meeting ID: 84394781592
Passcode: PUPLMS

Attached herewith is the Proposed Schedule of Activities for ready reference.

Your active participation in this capacity building measure of the University is highly anticipated.

Very truly yours,

DR. JONNA KARLA C. BIEN
Director

Noted by:

5.3.2. Instructional Materials

From the year 2020 to 2021, forty-two (42) faculty members of the Department of Psychology were engaged in the development of various Instructional Materials (IMs) for the use of students during and post-COVID-19 pandemic. The IMs were made pursuant to the University's directives and Memorandum Order No. 30, Series of 2020⁸ and were initially intended for use in flextel (*mixed online and correspondence modes of learning*) classes. However, even as we slowly begin to transition to onsite classes, said IMs are updated so that they may continue to be used.

The Department's faculty have developed twenty-three (23) IMs for the use

of tertiary students (*i.e.*, 1 general course subject and 22 Psychology course specific subjects), as well as eight (8) IMs for senior high school students (*i.e.*, 2 general strand subjects and 6 Humanities and Social Sciences Strand specific subjects). Said IMs were duly inspected and approved by the University's Quality Assurance Center. Likewise, various members of the faculty have also assisted in the assembly and dissemination of the IMs.

Presently, the University has issued directive for the creation of Committees per Department to undertake the evaluation of IMs for purposes of updating and revisions. In line with this, the BSPP is in the process of reviewing the revised curriculum to identify offerings which need IMs and manuals, as well as creating committees within the Department to be tasked with the revision of existing materials.

Likewise, the faculty are continuously encouraged to develop their own materials and references for use in their specific subjects. The Department also

Polytechnic University of the Philippines

College of Social Sciences and Development

Department of Psychology

TEACHING AND LEARNING

plans to continue developing materials such as workbooks, modules, and manuals for the different subjects under the BSPP.

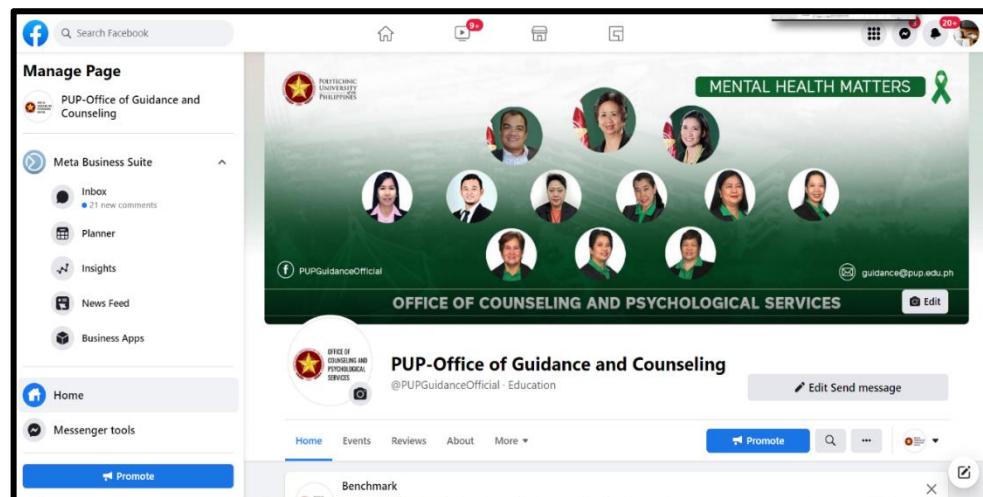

5.4. Office of Counseling and Psychological Services

The Office of Counseling and Psychological Services (OCPS) is composed of professional workers – many of whom are also faculty members of the Department – who apply modern techniques of education for the direct benefit of the students, faculty, and administration in meeting their needs to maximize their development. The Office, however, does not limit its duties to this activity but is, likewise engaged in basic research designed to increase its own effectiveness in rendering services and carry out its objectives. Through the Guidance and Counseling Office, the University offers a broad spectrum of counseling and psychological services designed to assist students in mobilizing their creative energies and achieving more effective personal, social, emotional, spiritual, educational, and vocational development. The Office specially aims:

- To help the students achieve the maximum level of their potentials thereby; enabling them to contribute their share to society;
- To assist the students in meeting and solving their own problems as they make correct interpretation of facts that lead to wise choices and needed adjustments;
- To enable the students to enjoy a well-balanced life in all its aspects - physical, mental, emotional and social.

These objectives are realized in general through:

- Securing information that the student need;
- Developing positive habits, techniques, attitudes, ideals, and interest;
- Offering wise counsel for students to make choices, adjustments and interpretations.⁹

5.4.1. Wellness Campaign

The Psychological Services WELLNESSCAMPAIGN aims to provide students with various opportunities for personal exploration, growth and development – arming them with needed life skills as they deal with academic challenges and personal life issues. It further aims to help the students become better individuals at home, school, and in society. Thus, the BSPP, through the Office of Counselling and Psychological Services (OCPS) undertakes different activities under the wellness campaign such as Arts Therapy, Leisure Reading, and Creative Play Therapy.

Reading Nook for Leisure Reading. Studies show that a positive relationship exists between college students' academic achievement and the time they spend in recreational reading. Among other benefits, reading for pleasure also improves reading comprehension, writing style, vocabulary, spelling, and grammatical development.

Polytechnic University of the Philippines

College of Social Sciences and Development

TEACHING AND LEARNING

Color Away and De-stress, Art Therapy. Coloring has a de-stressing effect. One of the first psychologists to apply coloring as a relaxation technique was Carl G. Jung. When coloring, we activate different areas of our two cerebral hemispheres, says Psychologist Gloria Martinez Ayala. It “brings out our imagination and takes us back to childhood, a period in which we most certainly had a lot less stress.” “I recommend it as a relaxation technique.” Says psychologist Antoni Martinez. “We can use it to enter into a more creative, freer state.” We can also use it to connect with how we feel, since depending on our mood we can choose different colors or intensity.

5.5. Other Support Activities

5.5.1. Annual Strategic Planning

Annual Institutional Development and Academic Planning are conducted together with all the Programs under the College of Social Sciences and Development (CSSD). Strategic planning is crucial for it creates a map for the Program to follow, to further ensure that its goals and objectives are always aligned with that of the University's, and that such goals and objectives caters to the holistic development of the students.

5.5.2. General Assembly

The General Assembly kicks off the academic year by gathering all BSPP students for the orientation on university policies, student organizations, and at the same time allow the students to meet the faculty members. The General Assembly clarifies school activities, programs, and co-curricular life. The assembly is conducted with complete and active participation of students and faculty members.

5.5.4. Final Coaching Review Sessions

The Polytechnic University of the Philippines in partnership with RGO Review Center, conducted a Final Coaching Review for Psychometrician Licensure Examination on January 31, 2022.

6. Performance of BSPP

The strength of the BSPP curriculum are reflective of the graduates who are currently employed in the private and public sectors. The alumni are considered as the best evidence of a program's effectiveness in terms of employment and positions held (Orejana and Resurreccion, June 2010).

6.1. Licensure Examination

For the past four years (2018 – 2022) Board Licensure Examination for Psychometrician and Psychologist, the BSPP has produced a good number of

Polytechnic University of the Philippines

College of Social Sciences and Development
Department of Psychology

TEACHING AND LEARNING

board passers as well as maintained a good standing in the list of overall performance of schools.

In the 2018 BLEPP, PUP Sta. Mesa garnered an overall performance rating of 68.58% with 70.42% passing rate for first time takers.

The performance of schools in the October 2018 Psychometrician Licensure Examination in alphabetical order as per R.A. 8981 otherwise known as PRC Modernization Act of 2000 Section 7(m) "To monitor the performance of schools in licensure examinations and publish the results thereof in a newspaper of national circulation" is as follows:

OCTOBER 2018 PSYCHOMETRICIAN LICENSURE EXAMINATION PERFORMANCE OF SCHOOLS IN ALPHABETICAL ORDER

SEQ. NO.	SCHOOL	FIRST TIMERS					REPEATERS					OVERALL PERFORMANCE				
		PASSED	FAILED	COND	TOTAL	% PASSED	PASSED	FAILED	COND	TOTAL	% PASSED	PASSED	FAILED	COND	TOTAL	% PASSED
195	POLYTECHNIC UNIVERSITY OF THE PHILIPPINES-MAIN-STA. MESA	150	63	0	213	70.42%	5	8	0	13	38.46%	155	71	0	226	68.58%

In 2019 BLEPP, our overall performance ranking was 81.91% with 83.03% rating for first time takers. Topping it off with new licensed Psychometrists who Ranked First among 6,800 passers. Ms. Bernadette Alice Cruz Rigor is the lone top 1 with a score of 86.80%. Also in the top 10 were 6th Placer Ms. Frances Yvette Millena with 85.40%, 9th Placer Riza Mae Jintalan Mondragon with 84.80% and 10th Placer, Earl Timothy Cruz Mojica with 84.60%.

6.2. Online Graduate Tracer Study

The alumni are considered as the best evidence of a Program's effectiveness in terms of employment and positions held (Orejana and Resurreccion, June 2010). This information can be obtained by undertaking a graduate tracer study.

Here is the link for the PUP Online Graduate Tracer Study:

INSTITUTE FOR DATA AND STATISTICAL ANALYSIS

ONLINE GRADUATE TRACER STUDY 2017-2019
COLLEGE OF SOCIAL SCIENCE AND DEVELOPMENT
POLYTECHNIC UNIVERSITY OF THE PHILIPPINES

The alumni are considered as the best evidence of a program's effectiveness in terms of employment and positions held (Orejana and Resurreccion, June 2010). These information can be obtained by undertaking a graduate tracer study. The PUP Online Graduate Tracer Study was conducted to assess the employability of the University's batch of 2019 graduates. Furthermore, it was aimed to track these graduates' job placement and professional development.

DATA GATHERING

The survey was participated by graduates of the different undergraduate degree programs in the three-year period from 2017 to 2019 across the different colleges in the Mabini Campus (Main Campus), Branches and Satellite Campuses of the University. The respondents were selected using systematic random sampling to represent at least 30% of the total number of graduates per year and degree program. The study used a redesigned version of the tracer study survey questionnaire utilized from 2013 to 2016. Respondents completed an online survey. The Institute for Data and Statistical Analysis summarized and examined the instrument's data (IDSA).

RESULTS OF THE STUDY

Table 1.1. Total Number of Graduates of PUP for 2017 and the Actual Number of Respondents from each Degree Program – College Of Social Science And Development (CSSD)

Degree Program	Total No. of Graduates	Actual No. of Respondents	Percentage of the Population of Graduates (%)	Percentage of the Total Respondents (%)
Bachelor in Cooperatives - Cooperative Business Management	37	12	32.43	6.56
Bachelor in Cooperatives - Education and Community Development	32	11	34.38	6.01
Bachelor in Cooperatives - Financial Management and Accounting	38	12	31.58	6.56
Bachelor of Arts in History	41	14	34.15	7.65
Bachelor of Science in Economics	85	29	34.12	15.85
Bachelor of Science in Psychology	268	91	33.96	49.73
Bachelor of Science in Sociology	39	14	35.90	7.65
Total	540	183	33.89	100.00
